

HAIR KISS

HAIR REPAIR & SCALP SERUM SAUK_175_B

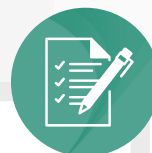

OVERVIEW:

This light serum contains the multifunctional humectant HYDROVANCE® that cares for the scalp and helps repair and protect hair. YUZU Ceramide B which is a traditional Japanese Citrus helps treat and protect hair damaged from chemical processes. Burgeon-Up boosts hair growth by promoting the stem cell growth factor. STRUCTURE® XL and Purity® 21C PURE give the smooth serum texture creating a non-greasy texture for the hair.

Phase	Trade Name	Supplier	European I.N.C.I. Name	Function	%
A	Deionised Water	-	Aqua	Solvent	82.10
	Sodium Citrate		Sodium Citrate	pH Buffer	0.50
	Citric Acid 50% w/w		Citric Acid	pH Buffer	0.40
	Hydrolite® 5 Green	SYMRISE	Pentylene Glycol	Efficacy Booster, Hydrating, Sensory	1.50
	Purity® 21C Pure	NOURYON	Zea Maize (Corn) Starch	Oil Absorption Sensory	1.00
	Structure® XL		Hydroxypropyl Starch Phosphate	Rheology Modifier, Emulsion Stabiliser	5.00
	Hydrovance®		Hydroxyethyl Urea	Moisturising	5.00
	-	-	Triethyl Citrate	Fixative, Film Strengthener	0.50
	Preserve SBPS	SAFIC ALCAN	Aqua, Postassium Sorbate, Sodium Benzoate	Preservative	1.00
	YUZU Ceramide B	ICHIMARU PHARCOS	Citrus Junos Fruit Extract, Butylene Glycol, Water	Smooths, Strengthens	1.00
	Burgeon-Up		Water, Alcohol, Nasturtium Officinale Leaf/Stef Extract	Hair Growth, Anti Hair Loss	2.00

PROCESS

PHASE A: Weigh water into a mixing vessel and begin stirring. Add the pH buffers and allow them to fully dissolve. Add the Hydrolite 5 Green and then sift in the PURITY® 21C PURE starch. Once the mixture is homogenous add the Structure® XL, and continue to mix until the batch is completely homogenous. Add the rest of Phase A, one by one, ensuring the batch is completely homogenous before making the next addition. Adjust pH to 4.5 - 5.5.

PROPERTIES

APPEARANCE : Off-white, opaque serum

VISCOSITY: 5000 cPs

pH : 5.1
