FR2025MDD

ISO 16128

## OVERVIEW

To combine effectiveness, naturalness, and optimized formulation costs, this cream with a rich texture is designed with a maximum of multifunctional ingredients. 1 : “Active” emollients and emulsifiers: ceramide-like emulsifier, squalane, and jojoba oil offer excellent skin compatibility and biomimetic action. 2 : Pellicer™ is an emulsifier that promotes the penetration of water-soluble active ingredients to boost their effectiveness. 3 : Preservation system that respects the microbiome and promotes skin hydration.
