

DUAL REPAIR

TWO-PHASE HAIR ELIXIR
LA-C184 (A)

HAIR

PE2026INCOS

OVERVIEW

Discover the perfect balance between science and nature with our Two-Phase Hair Serum. Designed with an innovative dual-action formula, this lightweight treatment instantly transforms the texture of your hair without leaving any greasy nor heavy feel. Formulated to revitalize, strengthen, and protect the hair from root to tip, it combines botanical extracts and advanced technology that help improve the resistance of the hair fiber. Its hydrating and repairing action provides softness, natural shine, and better manageability, leaving hair visibly healthier, silkier, and full of life from the first application.

OVERVIEW

Discover the perfect balance between science and nature with our Two-Phase Hair Serum. Designed with an innovative dual-action formula, this lightweight treatment instantly transforms the texture of your hair without leaving any greasy nor heavy feel. Formulated to revitalize, strengthen, and protect the hair from root to tip, it combines botanical extracts and advanced technology that help improve the resistance of the hair fiber. Its hydrating and repairing action provides softness, natural shine, and better manageability, leaving hair visibly healthier, silkier, and full of life from the first application.

PROCESS

PHASE A : Stir until homogeneous.

PHASE B : Add to phase A one after the other, while stirring constantly and vortexing until completely incorporated.

PHASE C : In another container, weigh components of phase C and stir until the mixture is uniform.

In an appropriate packaging, weigh first phase AB then add phase C.

PROPERTIES

APPEARANCE : Pink biphasic.

VISCOSITY : N/A.

pH : 4,5-5,5 (pink phase).
