SCALP & HAIR CONDITIONER MASK
50000687

HAIR

TK2026INCOS

OVERVIEW

This advanced scalp care hair mask is a high-performance treatment designed to restore balance, comfort, and vitality to both scalp and hair. Built on Siligel™, the formula delivers immediate hydration with a fresh, cushiony gel-cream texture that spreads effortlessly and rinses clean without heaviness. Hair feels softer, lighter, and more manageable, while the scalp feels refreshed, calm, and rebalanced. Ideal for stressed, dry, or sensitive scalp, this treatment transforms the hair care routine into a restorative ritual, promoting long-term scalp wellness and visibly improved hair quality.

OVERVIEW

This advanced scalp care hair mask is a high-performance treatment designed to restore balance, comfort, and vitality to both scalp and hair. Built on Siligel™, the formula delivers immediate hydration with a fresh, cushiony gel-cream texture that spreads effortlessly and rinses clean without heaviness. Hair feels softer, lighter, and more manageable, while the scalp feels refreshed, calm, and rebalanced. Ideal for stressed, dry, or sensitive scalp, this treatment transforms the hair care routine into a restorative ritual, promoting long-term scalp wellness and visibly improved hair quality.

PROCESS

PHASE A : Phase A is prepared in a beaker.

PHASE B : Phase B is prepared separately and added into main phase. Main phase is heated up to 80-85 °C.

PHASE C : Phase C is prepared in a separate beaker and heated up to 80-85 °C. Phase C is added into main phase and homogenized 3-4 minutes at 13000rpm.

PHASE D : Phase D is added into main phase below 40 °C and homogenized.

PHASE E : Phase E is prepared and added into the main phase.

PROPERTIES

APPEARANCE : Off-white balm-like cream.

VISCOSITY : 48600 cPs (Brookfield RVDV-2+, 5 rpm, 1 min, spindle 6).

pH : 5,5-6,0.
