OVERVIEW

Discover the Miracle Gel, a crystal-clear multipurpose oily gel created through refractive index matching between the aqueous and oil phases. Powered by Pellicer™ L-30, this innovative emulsifier enables to emulsify up to 70% of oil in a unique transparent gel texture that transforms upon contact with water. Enriched with Hydrovance® for deep hydration and Neossance™ Squalane for lightweight nourishment, the formula delivers comfort, softness, and versatility in a single product. Miracle Gel adapts to countless beauty rituals: nourishing lip balm, shaping brow gel, lightweight leave-on hair gel for wet styling, softening rinse-off mask, or even gentle makeup remover that emulsifies into a milky lotion upon contact with water. One formula, endless possibilities!
