BOBA BURST

JELLY TO FOAM CLEANSER SAUK_619_H

OVERVIEW:

Boba Burst replaces traditional pump packaging cleansers with a pre-dosed jelly format, enabling a simpler, more sustainable and refill-friendly cleansing solution for face, hair and body. This eliminates the necessity for primary single-use plastic packaging entirely and drastically cuts down on consumer product waste. Boba Burst is made of a hydrated gel network made up of Safic' Care T CK 2 and Cekol® 150, which hold onto water within the network, this allows the water within the formulation to produce a lather in use. It also includes Glucotain® Pro surfactant, which is mild to skin yet produces a creamy powerful flash foam. Aquacacteen™ provides rinse-off hydration and soothing properties to the skin. Hydrolite® 5 Green solubilses the fragrance to maintain the clarity of the product, as well as acting as a humectant for the skin and boosting antimicrobial protection.
