OVERVIEW

This light pink face cream features a silky, lightweight emulsion texture thanks to Amaze® XT and Structure® Silk. Sensizyme™ Ruby gives the cream its delicate natural rosy hue. The sensorial profile is driven by Neossance™ Hemisqualane and Saboderm DOE MB, while the emulsion is stabilized through Pellicer™ LB-30G. Zemea® Propanediol and ElfaMoist® AC Humectant help maintain skin hydration and comfort. A light film-forming veil is created by SolAmaze® Natural while Covabsorb EF preserves the formula's color. The active blend of BabyColla, Adeplump, Serenibiome® and Bloomlight® brings a sophisticated skincare dimension focused on skin comfort and overall complexion enhancement. Upon application, the cream melts quickly into the skin, leaving it feeling soft, smooth and perfectly comfortable.
