OVERVIEW

This crystal-clear pink mouthwash delivers a fresh and appealing sensorial experience, combining visual elegance with a lightweight, refreshing feel. Powered by Milltect, the formula introduces an innovative marine-inspired dimension, helping to reduce particle adhesion on teeth. D-Glycargine® complements the system by contributing to gum care and overall oral comfort. The vibrant transparent pink appearance is achieved with SensiTint Scarlet Red, while Zemea® Propanediol enhances the sensory profile and helps maintain excellent clarity. Its delicate strawberry note enriches the rinsing experience with a pleasant fruity touch and long-lasting freshness. The result is a visually attractive mouthwash that combines freshness, clarity, and a pleasant flavor in a modern oral care format.

Phase	Trade Name	Supplier	European I.N.C.I. Name	Function	%
A	Demineralized water	/	Aqua	/	90,85
